Enterprise search

🛡 **Secure**

SOC 3 & GDPR certified

Committed to delivering a highly secure and compliant environment for our customers.

Security Policies ▶

〰 **Reliable**

99.999% Availability

Industry-leading 99.999% SLA available on select plans.

API Status ▶

📈 **Scalable**

Global, blazing-fast distribution

70+ data centers on 6 continents to ensure a consistent experience for every user.

Infrastructure ▶

Developer-driven standards...

Rely on robust APIs

We power 1.5T requests per year for 10K+ customers all over the world. Our APIs are written for performance and scalability first.

For every developer

Use your preferred language to prototype ideas quickly and build production ready experience in no time with documentation and tools for every stack.

Packaged building blocks

Don't build from scratch and leverage API building blocks to deliver the right content within milliseconds via search, navigation and recommendations.

...that drive business results

Improved business results

Get relevant content to the right person in milliseconds. Run continuous optimizations to generate higher conversions across any industry.

True omnichannel capability

Roll out and manage multiple consistent experiences across different brands, divisions and portfolios from one platform.

Improved competitiveness

Implement a new digital experience in days instead of months or iterate on offerings without impacting your backend.

Thriving Dev community

400K+ Developers

Globally Scalable Search

1.5T Search Operations/Yr.
